

## EGG FIX CTX

---

<b>Appearance</b>	: Opaque liquid from colourless to slightly straw-coloured
<b>Constitution</b>	: Based on organic compound with aldehyde function
<b>pH (Sol.10%)</b>	: $4.0 \pm 2$
<b>Solubility</b>	: Water soluble

### Characteristics

EGG FIX CTX replaces formaldehyde in the fixing of casein finish but its use is more hygienic and pleasant since its smell and volatility are less than formaldehyde.

### Method of Use

EGG FIX CTX has same penetration property than formaldehyde.  
We suggest to avoid to use EGG FIX CTX on white colour because it is giving a light yellowing on the finished leather.

### Applicative example

330	EGG FIX CTX
640	WATER
30	ACETIC ACID
