

EGG WAIL 12

Appearance	: Solid from white to light yellow
Constitution	: Homogeneous mix of high quality waxes
Dry content	: 95% \pm 2
Solubility	: Not water-soluble

Characteristics

EGG WAIL 12 is a specific hard wax to realise pull-up effects.

EGG WAIL 12 confers to the leather a very strong pull-up effect, which permits “after sandblast embossing” to obtain an excellent sealing on buffed grain.

The leathers treated with EGG WAIL 12 hold a dry touch and can be appropriatedly finished without adhesion problem.

Method of Use

Previously warm melting, EGG WAIL 12 is used by roller coater with warmed roller at about 55-60°C of temperature.

After application, it's suggested to hang up the leathers at natural conditions for minimum 12 hours and follow with ironing or sandblast operation.

The combination of EGG WAIL 12 with EGG WAIL 39 is helpful because it permits a lowering melting point and lets an easier application with less spreading calories contribution.

Consequently, the cleaning of the rollers is facilitated.
