EGG WAIL FW 1 is a water emulsion of waxy binders and it forms medium hard, non sticky matt films.

Method of Use

EGG WAIL FW 1 is a specific product for pull-up effects on any kind of leather, either pigments-coated or pure aniline and it can be applied by spraying or roll coating.

The bigger the quantity of product applied, the more evident the final effect.

It must be diluted, blended with other binders and cross-linked to increase mechanical resistance.
