Constitution	: <i>Compounded acrylic resin with selected charges in water dispersion</i>
pH (Sol.10%)	: <i>9.5 ± 0.5</i>
Dry content	: <i>22% ± 1</i>
Charge	: <i>Anionic</i>

Characteristics

EGG BDR HG 13 is acrylic based compound, sealed with selected charges; specific for upholstery finishing of “mezzo fiore” semi-buffed grain leathers.

After dry milling, the leathers sealed by EGG BDR HG 13 assume more pleasant unloaded character.

Method of Use

Before finishing, buffed crust is milled, in case previously embossed to reach “mezzo fiore” look.

Then, EGG BDR HG 13 is applied by wet spray, given as airless type, just added of pigment mix.

Due to its discharging property, obtainable by simple full dry milling, EGG BDR HG 13 is appreciate on full grain finishing for articles sofa and leathersgoods as well.

Physicals performs of this ground coat can be improved with addition of 1% cross-linking agent EGG CROSS U2.
